Native Numbers

Math

Butterfly Math

Summer Math

Todo Math

Math Problems

Math Puzzle Lite

Hungry Fish

Amazing Coi...

First Grade

Number Maze

Geoboard

TallyTots

NOTE: Most apps are available for free with an option to upgrade for an additional cost.

Math Websites

- <http://more.starfall.com/> -

More Starfall will teach math songs to reinforce math concepts. There are math games to practice numbers, geometry and measurement, as well as addition and subtraction. The "First Grade This Way" arrow will introduce

learners to some new skills that will be taught in first grade.

(NOTE: Classic Starfall - <http://www.starfall.com/> - also has math-related concepts. Classic and More Starfall are wonderful tools to help strengthen literacy skills.)

- <http://www.sheppardsoftware.com/math.htm#earlymath> -

Fun Online Math Games has activities to reinforce counting, greater or less than, ordering numbers, skip counting, grouping, odd or even numbers, patterns, addition, subtraction, shapes, fractions, money, and time.

- <http://www.ixl.com/math/kindergarten> - **Kindergarten Math Practice** lists many of the skills students learned in Kindergarten and provides questions for students to practice those skills! Questions will automatically increase in difficulty as students improve!
