

Summer Math 2021

Dear Parents and Guardians:

Attached you will find a 12 page addition and subtraction fact packet. Please print and have your child complete 5 packets. The more your child practices their facts over the summer the more success and confidence they will have in math in 2nd grade. We suggest your child do a page a day. Five completed packets are due and will be collected on Friday September 10th, 2021.

Please scroll down to print 12 page packet below.

Below is a suggested list of math websites that your child can use over the summer. This is for all students entering the second grade.

Here are the following math websites:

<https://www.mobymax.com/signin>

www.abcya.com

www.sheppardsoftware.com

www.e-learningforkids.org

Thank you for your cooperation and support!
